Si

Visit Notes

We strongly encourage you to share the following record of today's visit with your primary care physician.

Contact phone number: On record

Mode of Communication: Videocall

HPI: Patient presents fever, last week presented sneezing and cough. Father refers that worsen with persistent cough and fever. Persistent fever every 4-6 hours.

Meds: see record

Allergies: see record

Exam:

Gen: Awake, look ill, no visible distress, non- toxic appearance.

HEENT: nasal congestion, tonsils exudate

Respi: cough

Assessment: URI, Tonsillitis

Plan:

1. I am sending you a medical order as described below.

2. Discussed precautions.

Follow up:

1. If there are any questions or problems with the prescription, call customer support anytime for assistance.

2. Please re-connect for another online visit or see an in-person provider should your symptoms worsen or persist.

3. Taking a probiotic (either in pill form or by eating yogurt that contains probiotics) while using antibiotics can help prevent some of the troublesome side effects that antibiotics can sometimes cause.

4. Please print a copy of this note and send it to your regular doctor, or take it to your next visit so it may be included in your medical record.

Patient voiced understanding and agrees to plan

Please see your PCP on an annual basis.
